

It is important that you get a photographer whose style you like. If you haven't done so already, please look at the recent wedding photo on our website to see if you like our recent work.

Your wedding will be a unique occasion, and as such we aim to provide a photography service tailored to your needs. However, we understand that it helps to have an initial outline to customise, so we have detailed some of our common services below. We would be delighted to discuss and customise a wedding package to meet your requirements.

Choice of Coverage

We offer four levels of coverage as standard from the ceremony only up to the full day. These are detailed below. However, we are flexible to meet your requirements so if one of these options doesn't fit your desires we'd be happy to customise what we offer.

Our "Ceremony Only" option includes the arrival of the guests, the arrival of the bride, the ceremony itself (if permitted by the celebrant) and both formal and candid photography at the ceremony venue. Our "Main Events" coverage starts with the bride getting ready and includes coverage at the reception venue. This can be extended with our "Main Events Plus" and "Full Day" options. The "Main Events Plus" includes the wedding breakfast and speeches, with coverage to 9pm. The "Full Day" option is for those wanting complete coverage, with informal coverage of your reception until the bride and groom leave, or until midnight - at which point it is no longer the wedding day!

Included Prints

All our coverage comes with £100 print credit as standard. This enables you to get a selection of prints regardless of any other options you chose. Further print credits can be bought at a reduced price prior to your wedding, or prints can be bought via your online gallery (see below) after the wedding. Print credits can also be used for albums.

Our albums come in two forms, one which incorporates prints and one where the images are printed onto the page in a storybook format. These albums are produced at a leading UK based professional laboratory.

Digital Images

An online gallery is provided free as part of our coverage of your day. This enables your family and friends to see your photos, and also serves as a proofing facility for you to choose photos with your print credits, or to buy prints.

Many people like to have a CD/DVD of the digital images of their wedding photos. We offer two choices for those wanting a DVD. On a "Lo-Res" CD/DVD you will get all images from your day at a resolution suitable for web display, email, and printing up to 7x5". The "Hi-Res" DVD includes all images from your day at the maximum resolution available. These images will be suitable for bigger enlargements or for you to get an album made up elsewhere. All CDs and DVDs will come with an appropriate license enabling you to do pretty much anything non-commercial such as make prints and share with friends. All CDs/DVD images are in JPEG format.

Lo-Res CD/DVD: £150 (+£50 for "full day")
Hi-Res DVD: £300 (+£100 for "full day")

Additional Options

FREE ENGAGEMENT SHOOT: We believe it is important that you feel comfortable working with your photographer. The best way to assess this is too have a trial photo-shoot before the day. If you are thinking of booking us for your wedding we would encourage you to book an Engagement shoot with us first. If you subsequently book us for your wedding, we will count the cost of the engagement shoot towards you're wedding photography – effectively making the engagement shoot free! See our website for details of the engagement photography.

£FREE**

SECOND PHOTOGRAPHER: With one photographer shooting on their own, only one event can be captured at a time, for instance we can get coverage of both the bride and the groom getting ready. We may also miss opportunities for candid photography while the formal groups are being done, rarely is only one thing happening at a wedding at any one time. Having a second photographer at your wedding ensures you get more comprehensive coverage of the day.

Second Photographer: £200 (+£100 for "full day")

GUEST PHOTO COMPILATION: Most of your guests will have digital cameras or camera phones with them on the day. Your friends may offer to send you their photos, and they may even do so – but then you have to sort them, store them, etc. It's made even more complicated if you have more than one friend! We can take some of the hassle away, with our compilation service. We either copy your friend's memory cards before they leave the wedding or they can upload them to our website after the event. Once a pre-arranged date has passed, we will sort your friend's photos and put them all onto a DVD for you. Your guests will also be able to order copies of this DVD.

Guest Photo Compilation: £100 (With DVD)

Extra DVD's: £10

TRASH-THE-DRESS SHOOT: The name trash-the-dress is a little misleading really; the aim of the session isn't to destroy your dress, it's to make great portraits of the bride and groom in their wedding gear. This can be best achieved after the wedding day when the bride isn't as worried about keeping her dress perfect, and the groom isn't being teased by his mates. See our website for more details of this service.

Trash-the-dress Shoot: From £100

Special Offers

GUEST PHOTO COMPILATION FOR ONLY £35. The guest photo compilation is a new service we are offering and we're keen to get feedback on it. However it will require the photographer to do more on your day and we think it will work best when two photographers are presents. So as an introductory offer to this service we are currently offering the guest photo compilation service for only £35 when you book it with a second photographer.
